

StarPro 6 Star Series

SP6: Ultra Efficiency 6 Star Series

The SP6 series incorporates the latest innovation in Australia's most popular high efficiency range of ducted gas heaters. It comprises the same physical dimensions and capacity as the current Brivis HX High Efficiency range but has achieved a higher efficiency rating, making it Brivis' first 6 Star ducted gas heater.

Available in a 23kW capacity, internal, natural gas and extra air versions – with external, LPG and more capacities to follow.

Features

- Brivis' first 6 star heater
- Highest possible star rating
- Delivering far greater efficiency
- Lay down kit option (internal)
- Reduced running costs
- Reduced carbon emissions
- ICE compatible
- Additional zoning options
- Qualifies for VEET subsidy (VIC only)
- Five year parts and labour warranty

Bonus offer when you register your product online, brivis.com.au.

Annual percentage savings when compared to a standard 3.0 Star Ducted Gas Heater

30%

Data is based on AS4556-2011. House Heat load – 0.2 MJ/HR/m³. Actual figures may vary for individual situations due to variation in factors such as gas price, house size and insulation, heater usage patterns etc.

Net Weight (kg)	59	59
Available in LPG	TBA	TBA
Optional Extra - Max. nominal Brivis Cooling Capacity	12	15

Brivis – Australia’s leading climate system

A reputation for innovation, reliability and quality for over 50 years has led to Brivis being recognised as the staple of heating and cooling solutions in Australian homes.

Brivis Ducted Gas Heating is one of the most cost effective ways to heat your entire home. And by introducing Brivis Zoning Technology, this enables you to reduce your energy consumption and receive cost savings by only heating where and when you need it most.

Our design and manufacturing process is accredited to the Australian Standard ISO9001.
